**FOREVER GREEN LANDSCAPING RECOGNIZED AS RECIPIENT OF
'TEAM AWARD' BY AQUASCAPE, INC**

Leominster, MA 01453– Forever Green Landscaping has been recognized as a 2011 recipient of Aquascape's Team Award on August 20th in St. Charles, IL. Aquascape distributed awards to customers who displayed one or more of the company's core values of Character, Team, Win-4, and Fun.

"We're proud to acknowledge Forever Green Landscaping for demonstrating the qualities of Team, which recognizes that the organization is more important than any one individual, thinking of others instead of self. It includes belief in communicating a trusting, thoughtful, controlled, and consistent message," said Greg Wittstock, CEO and Founder of Aquascape, Inc.

Aquascape is North America's leading innovator and manufacturer of water features and the inventor of the naturally-balanced, contractor-installed ecosystem pond. The Team Award was presented to Forever Green Landscaping during Aquascape's annual Pondemonium®, the water gardening industry's premier training event for retailers, contractors, and distributors. Pondemonium® offers hands-on pond building classes, construction, marketing and business workshops, and a variety of networking sessions for its participants.

Forever Green Landscaping has been a Certified Aquascape Contractor for 3 years. For more information on Forever Green Landscaping's products and services, log on to www.ForeverGreenLandscaping.net or call 978-534-5588.

Landscape design, installation, and maintenance is part art and part science. In addition to creative patios, walkways, gardens, and walls, Forever Green Landscaping specializes in the design and installation of waterscapes, pondless water features, and fountains for residential and commercial properties.
