{ Add a little *peace* of paradise to your yard  
with our entry level *water feature* options.

*“Everywhere water is a thing  
of beauty gleaming in the dewdrop,  
singing in the summer rain.”*

*~ John Ballantine Gough*

#### **How the System Works:**

The AquaBasin™ water reservoir, which sits underground, houses the plumbing and the pump that are connected directly to the decorative fountain. The water that collects in the AquaBasin™ is then pumped directly through the center of the decorative fountain. To finish off the project, rocks and gravel are placed on top of the AquaBasin™ to camouflage the unit. A few plants or landscaping can be added to make the feature even more aesthetically pleasing.
