

Reconnect with Nature

Water features are today's hottest trend in landscaping. Across North America, high maintenance, boring expanses of lawn are being transformed into beautiful, low maintenance water features. Everyday millions of people return home to a little paradise ... their own backyards!

Environmentally Friendly

Environmentally friendly and completely customized water features can be installed anywhere using our easy-to-install MicroPond® Kit. When done right, the pond becomes a sustainable ecosystem in your own backyard. Aquascape ecosystem ponds are low-maintenance and family friendly. Use of chemicals is kept to a minimum, allowing Mother Nature to work naturally and efficiently.

Right In Your Own Yard

Relax alongside a water garden and experience a tranquility that transcends today's stressful world. Recuperate from your hectic day with free moments, listening to the soothing sound of a waterfall. Join the many satisfied homeowners who readily profess that adding a water feature to their landscape was the best investment they've ever made.

The Best Seasonal Pond Care Product on the Market!

AQUACLEARER™ EXTREME DRY

AquaClearer™ Extreme Dry contains bacteria and enzymes that are scientifically blended and tested to produce maximum results in ornamental ponds. AquaClearer™ Extreme Dry contains specific beneficial microbes and enzymes that are effective at reducing sludge, uneaten fish food and fish waste.

AQUACLEARER™ EXTREME LIQUID

AquaClearer™ Extreme Liquid bacteria is scientifically blended and tested to produce maximum results in ornamental ponds. AquaClearer™ Extreme Liquid contains specific beneficial microbes that are effective at reducing ammonia, nitrites and excess nutrients that would otherwise cause poor water quality and clarity.

AQUACLEARER™ EXTREME COLD WATER LIQUID

AquaClearer™ Extreme Cold Water Liquid bacteria is scientifically blended and tested to produce maximum results during colder temperatures. During the spring and autumn seasons there is extreme nutrient loading in the pond as trees and plants in and around the pond are dropping organic material into the pond.

S.A.B.™ EXTREME

S.A.B.™ Extreme is formulated to help reduce pond maintenance and promote the growth of beneficial bacteria and enzymes. S.A.B.™ will assist in the breakdown and reduction of debris in the stream, waterfalls, and pond.

Item #99215

MicroPond® Kit

Three sizes for a pond that fits
into any landscape setting.

You Can Go

From This ...

To This ...

With This...

If you are a person who enjoys creating something with your own two hands, then the **MicroPond® Kit** is the thing for you, and it doesn't get any easier!

We've taken the guesswork out of assembling the items to build a pond. No more headaches trying to piece together fittings and plumbing assemblies. No extensive training to understand what pump to use with what filter. It's all been done for you! We've included everything you need to build a pond... in one box!

The rewards of creating something from nothing yourself are immeasurable!

MicroPond® Kits Include:

- Fish-Safe, EPDM liner and underlayment
- MicroSkim® Mechanical Filter
- MicroFalls® Waterfall Filter
- 2000 gph AquaSurge™ pump
- Plumbing assembly
- 25' of 1-1/2", Kink-free pipe
- Installation hardware
- Silicone sealant
- EcoSystems® EcoStarter™ packet bacteria with dechlorinator
- A complete 20-step installation instruction manual

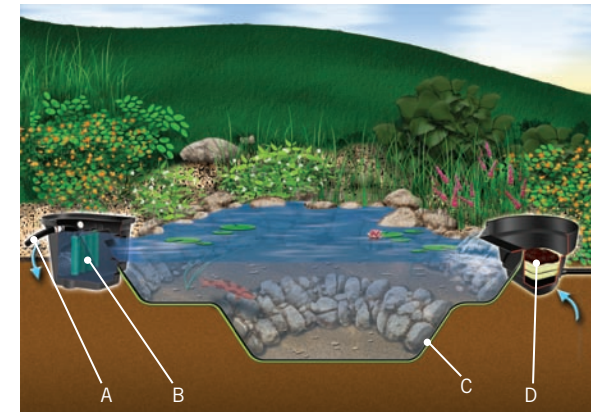

THREE CONVENIENT SIZES:

4' x 6' MicroPond® Kit
Includes an 8' x 10' Liner & Underlayment

6' x 8' MicroPond® Kit
Includes a 10' x 12' Liner & Underlayment

8' x 11' MicroPond® Kit
Includes a 12' x 15' Liner & Underlayment

- Kink-free piping is buried out of sight several inches below ground level and runs alongside the pond.
- The skimmer sweeps the pond surface depositing debris into a mesh basket for easy removal. The skimmer also acts as a pump chamber.
- Choose the kit that has the precut EPDM liner size that best suits your needs.
- The MicroFalls® Waterfall filter becomes a biological filter as well as a start for your waterfall.
